UNITED STATES DISTRICT COURT FOR THE EASTERN DISTRICT OF TEXAS MARSHALL DIVISION

DATATREASURY CORPORATION,

**Plaintiff** 

2:06-CV-72 DF

v.

WELLS FARGO & COMPANY, et al.

**Defendants** 

### JOINT CLAIM CONSTRUCTION AND PREHEARING STATEMENT IN COMPLIANCE WITH PATENT RULE 4-3

Pursuant to the Court's Second Amended Docket Control Order, the Parties<sup>1</sup> hereby submit this Joint Claim Construction and Prehearing Statement in compliance with Patent Rule 4-3. Each Defendant joins this Joint Claim Construction and Prehearing Statement solely with respect to those terms found in claims asserted against it. The Parties expressly reserve the right to modify this Joint Claim Construction Statement should the Court issue any relevant claim construction rulings between now and the Markman hearing scheduled for September 24, 2007.

### I. P.R. 4-3(a)

Pursuant to P.R. 4-3(a), the Parties present the agreed construction of the claim terms, phrases, or clauses, contained in **Exhibit A**.

<sup>&</sup>lt;sup>1</sup> First Citizens Bancshares, Inc., HSBC North America Holdings Inc., and Union BanCal Corporation join this Statement subject to, and without waiver of, their lack of personal jurisdiction defenses.

### II. P.R. 4-3(b)

Pursuant to P.R. 4-3(b), the Parties present the disputed constructions of the following claim terms, phrases, or clauses, contained in **Exhibit B** (the "'007 Patent"), **Exhibit C** (the "'868 Patent"), **Exhibit D** (the "'759 Patent"), and **Exhibit E** (the "'778 Patent"). **Exhibits B thru E** include citations to example intrinsic and extrinsic evidence asserted to support the parties' respective claim constructions. For brevity, terms and phrases are defined only once, where they first appear. For purposes of presenting the disputed constructions in **Exhibits B thru E**, the Defendants' constructions are placed in the following groups:

### "Defendant Group 1":

Bank of America Corporation

Bank of America, National Association

Bank of Tokyo-Mitsubishi UFJ, LTD

**BB&T** Corporation

Branch Banking and Trust Company

Citizens Financial Group, Inc.

City National Bank

City National Corporation

Comerica Bank & Trust, National Association

Comerica Incorporated

Deutsche Bank Trust Company Americas

First Citizens Bancshares, Inc.

First Citizens Bank & Trust Company

First Data Corporation

HSBC Bank USA, National Association

HSBC North America Holdings Inc.

Lasalle Bank Corporation

Lasalle Bank, National Association

M&T Bank

M&T Bank Corporation

National City Bank

National City Corporation

Remitco, LLC

Telecheck Services, Inc.

The Bank of New York

The Bank of New York Co, Inc.

The Clearing House Payments Company, L.L.C.

U.S. Bancorp U.S. Bank, National Association UBS Americas, Inc. Union Bank of California, National Association UnionBanCal Corporation Wachovia Bank, National Association Wachovia Corporation

### "Defendant Group 2":

KeyBank, National Association KeyCorp PNC Bank, National Association PNC Financial Services Group, Inc.

The parties expressly reserve the right to modify this identification of intrinsic and extrinsic evidence, including the right to cite additional evidence not identified herein, to support their respective claim constructions.

### III. P.R. 4-3(c)

The Court's Second Amended Docket Control Order has designated 4 hours for each side to present at the Claim Construction Hearing on September 24, 2007, with the hearing to continue September 25th if necessary. No Party currently proposes to change the Court's Scheduling Order.

### IV. P.R. 4-3(d)

Pursuant to P.R. 4-3(d), the parties state as follows:

- A. Terry Geer and David James may testify at the Claim Construction Hearing as to the various structural embodiments representing certain means-for applications.
- В. If required or helpful to the Court, "Defendant Group 1" proposes to call Dr. Dewayne E. Perry as an expert witness providing testimony for the construction of the means-plus-function claim terms for which he is identified below. Dr Perry may be

called on to explain the technology, the states-of-the-art at the time the patent application was filed and/or issued, the meaning of claim terms as they would be understood by those of ordinary skill in the art at the time of the invention, the proper construction of various claim terms in light of the intrinsic and extrinsic evidence, and the level of ordinary skill in the relevant art. Dr. Perry may also be called if required or helpful to the Court as a rebuttal witness to testimony provided by Plaintiff at the Claim Construction Hearing. Dr. Perry may testify to the lack of corresponding structure sufficient to perform the claimed function(s). Specifically, with respect to the "means-plus-function" terms that recite a computer-implemented function(s), Dr. Perry may provide testimony supporting the following:

- The identified "means-plus-function" claim terms recite a computerimplemented function(s) which require a CPU, a microprocessor, a programmed computer, and/or software to perform it/them.
- It is well known in the art that a stand-alone processor or CPU could not perform the functions in the identified "means-plus-function" claim terms without associated software and/or programming.
- For each identified "means-plus-function" term, the patent does not provide a flowchart, mathematical equations, source code, or detailed descriptions in the specification that could constitute an algorithm for performing the functions of any of the computer-implemented meansplus-function limitations.

"Defendant Group 1" reserves the right to call Mr. Karl Sammons if required or helpful to the Court as a rebuttal witness to testimony provided by Plaintiff at the Claim Construction Hearing. Mr. Sammons may be called on to explain the technology, the states-of-the-art at the time the patent application was filed, the meaning of claim terms as they would be understood by those of ordinary skill in the art at the time of the invention, the proper construction of various claim terms in light of the intrinsic and extrinsic evidence, and the level of ordinary skill in the relevant art.

C. "Defendant Group 2" does not intend to call any witnesses. "Defendant Group 2" reserves the right to rely on the testimony of witnesses offered by other parties in this case or related cases in support of its claim constructions.

### V. P.R. 4-3(e)

Pursuant to P.R. 4-3(e), the parties state as follows:

- A. Plaintiff foresees no need for a prehearing conference on claim construction issues, other than for limiting the number of terms for construction at the Markman hearing.
- **B.** At present, "Defendant Group 1" is unaware of any additional issues which might require the scheduling of a prehearing conference. If such issues later arise, "Defendant Group 1" will inform the Court and the parties involved and propose dates for a prehearing conference.
- C. At present, "Defendant Group 2" is unaware of any additional issues which might require the scheduling of a prehearing conference. If such issues later arise, "Defendant Group 2" will inform the Court and the parties involved and propose dates for a prehearing conference.

Defair and Division of the Constitution	This term should be construed under 35 U.S.C. § 112(6).  Function: Sending and receiving the instruments.  Corresponding Structure: The structure disclosed in the specification of the '007 patent that corresponds to this element is the structure disclosed in the specification for the "means for physically transporting instruments" and the "means for physically accepting the instruments," if any.	This term should be construed under 35 U.S.C. § 112(6).  Function: Physically accepting the instruments transported from the other institutions.  Corresponding Structure: The specification of the '007 patent does not disclose structure sufficient to perform the recited function.
(1994) — "to select in advance; choose beforehand."  "site", The Oxford English Dictionary (2d ed. 1989) — "2. a. the situation or position of a place, town, building, etc., esp. with reference to the surrounding district or locality."	This term should be construed under 35 U.S.C. § 112(6).  Function: Sending and receiving the instruments.  Corresponding Structure: Specification does not disclose structure sufficient to perform the recited function.  Extrinsic Evidence:  Testimony from Dr. Perry.	strued under  This term should be construed under 35 U.S.C. § 112(6).  Eunction: Physically accepting the instruments transported from other institutions.  Air or  Corresponding Structure: Sical facility.  Specification does not disclose structure sufficient to perform the recited function.
Plaintiff Contraction	This term should be construed under 35 U.S.C. § 112(6).  Function: Sending and receiving the instruments.  Corresponding Structure: Air or ground transportation and a preselected institution's physical facility.  Intrinsic Evidence  '007 Patent, at Fig. 1; Col. 6:22-24; and potentially the file history.	a further means-plus- imitation of "means for including means for instruments.  This term should be construed under 35 U.S.C. § 112(6).  Eunction: Sending and receiving the instruments.  Corresponding Structure: Air or ground transportation and a preground transportation and a preselected institution's physical facility.  Intrinsic Evidence
South Cine to the south of the	"means within each of the preselected institutionsfor sending and receiving the instruments, said means for sending including means for physically transporting the instruments from an institution at one site to each other of the institutions at the other sites, said means for receiving including means for physically accepting the instruments transported from the other institutions" is in meansplus-function format subject to 35 U.S.C. § 112(6)	The "means for receiving" includes a further means-plusfunction limitation of "means for receiving including means for physically accepting the instruments transported from the other institutions" subject to 35 U.S.C. § 112(6)

specification of the '007 patent does not disclose structure sufficient to perform the recited function.  Intrinsic Evidence: Col. 1:62-66; Col. 2:32-50; Col. 6:9-24; Col. 6:60-66; Col. 7:14-31; Fig. 1.	This term should be construed under 35 U.S.C. § 112(6).  Functions: Determining the time of physical transport of financial instruments between and among the participants according to a predetermined time cycle, and determining the occurrence of a final settlement by the clearinghouse participants at a pre-determined time until after a time that certain predetermined local settlements in the localities, by the participants in the localities, are completed.  Corresponding Structure: The specification of the '007 patent does not disclose structure sufficient to perform the recited functions.  Intrinsic Evidence:  Col. 2:13-16; Col. 2:55-61; Col. 4:7-14;
Corresponding Structure: Specification does not disclose structure sufficient to perform the recited function.  Intrinsic Evidence:  (1:62-66); (6:11-22); (6:20-22); FIG 1  Extrinsic Evidence: Testimony from Dr. Perry.	This term should be construed under 35 U.S.C. § 112(6).  Functions:  1) Determining the time of physical transport of financial instruments between and among the participants according to a predetermined time cycle; and 2) Determining the occurrence of a final settlement by the clearinghouse participants at a pre-determined time until after a time that certain pre-determined local settlements in the localities, by the participants in the localities, by the participants in the localities, by the participants in the localities.  Corresponding Structure: Specification does not disclose structure sufficient to perform the recited function.
Plaintiff Construction  Testimony of David James	Plaintiff contends that this term is not governed by 35 USC § 112(6).  Predetermined time schedule.  Intrinsic Evidence:  '007 Patent, at Col. 2:55-58; 3:13-16; 5:37-39  Extrinsic Evidence:  Webster's Encyclopedic Unabridged Dictionary of the English Language, Random House, Inc., p. 744 (1994) (defining "predetermine" as "to settle or decide in advance").
Construction	"a time control for determining the time of physical transport of financial instruments between and among the participants according to a predetermined time cycle, and for determining the occurrence of a final settlement by the clearinghouse participants at a pre-determined time until after a time that certain pre-determined local settlements in the localities, by the participants in the localities, by the completed" is in means-plustunction format subject to 35 U.S.C. § 112(6)

#### DataTreasury Corporation v. Wells Fargo & Company, et al. P.R. 4-3(b) PARTIES DISPUTED CONSTRUCTIONS FOR U.S. PATENT NO. 5,930,778 EXHIBIT E

y.	Claim 1		
<del>.</del>	Preamble should be construed as limiting.	Preamble is not limiting and the language in preamble does not need to be construed.  See, e.g., Catalina Mktg. Int'l Inc. v.  Coolsavings.com Inc., 289 F.3d 801 (Fed. Cir. 2002); DeGeorge v. Bernier, 768 F.2d 1318 (Fed. Cir. 1985).	Preamble contains limiting terms, including term(s) requiring construction(s).
8	"received by a payee at a location convenient to a payee's item capture facility and remote from the payee's depository bank"	This language is in the preamble and does not need to be construed.	Physically received at the payee's facility where the payee performs its own processing of checks and other cash items geographically distant from all facilities of the payee's bank.
			Intrinsic Evidence:
			(1:18-25); (4:43-54); (4:49-62); (5:1-6); (5:10-16); (5:31-34); (6:24-32); (6:40-49); (7:4-16); (8:1-9); (8:45-54); (8:48-54); (8:55-58); (10:58-63); (11:65-66); (12:38-43); (13:17-29); (13:50-55); (14:13-16); Abstract; FIG 1; FIG 2; Response (Nov 30, 2004) at 17; Huntington Banks, Electronic Check Deposit (ECD) Service Brochure (1994).
			Extrinsic Evidence:
			"remote", Random House Webster's College Dictionary, Random House, Inc. (1992) – "far apart; far distant in space."
			"remote", The Oxford English Dictionary (2d ed.) (1989) – "1. placed or situated at a
